User quote

Observation

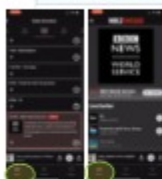

User	<div>Nick Johansson</div> <div>34</div> <div>IT Manager</div> <div>2 phones, apple and android</div>
Screener Q&A	
Tasks	
1. Find and and open the WBEZ app.	<div>n</div> <div>How do I go back to it?</div> <div>I went to the menu</div> <div>Did not notice bottom navigation, tried to use bottom navigation</div>
Without leaving the homepage, describe what you would select first. **Do not select anything yet. ** If you would leave without clicking anywhere, please explain why. [Verbal response]	<div>Answered this question in response to #1</div> <div>burger menu, because I wanted to see where it was, and it was in the landing page</div> <div>See what features it understands what it is</div>
Use the app to listen to the live broadcast.	<div>Radio and then that's the first thing that's up</div> <div>Didn't use collapsed player or Listen Live Now</div> <div>Successfully completed task</div>
You want to see more information about what you're currently listening to. How would you go about that?	<div>n</div> <div>Clicked into collapsed player</div> <div>i try to find out more by playing around, nothing's there, I don't know this much</div> <div>I dont think there is a way</div> <div>There's like here and yesterday, what's the difference?</div> <div>I'd much rather the expanded player scroll up to show more information</div>
5.) Now let's say you have to pause the live broadcast for a moment. Pause the live stream.	<div>n</div> <div>Successfully completed task</div>
Now you want to continue listening. How would you make sure you're listening to what's playing live now? Please think out loud as much as possible. [Verbal response]	<div>Opens up collapsed player, presses play</div> <div>Pressed skip to live</div> <div>Could see that there was a play button on the left side, and the button also indicated that it was opened up the collapsed player</div> <div>Skip to live, that's a really nice feature</div>
You just realized you missed something you wanted to hear about 20 seconds ago. How would you do that?	<div>n</div> <div>Tries to toggle</div> <div>I would go back in and pause it</div> <div>Bad toggle touch feature</div> <div>I think the 10 sec button would be easier</div>
Use the app to listen to a recent highlight that looks interesting to you. Speak out loud as you do so.	<div>This actually looks like the home feature I was looking for</div> <div>I consider podcasts more of a menu feature</div> <div>The collapsed player has some time functionality, presumably because the back button doesn't work</div> <div>It would be interesting to see the original time of an audio recording</div>
What is the difference between browse and home to you?	<div>Browse is something more catalog based on topics, business, sports</div> <div>Home page has the ability to click into something that you're interested in</div> <div>Or more high level features like Listen Live</div> <div>Like a search feature more detailed</div>
What do you expect to happen after you've finished listening to a recent highlight? Did this experience match your expectations? Why or why not? [Verbal response]	<div>I would prefer the radio schedule because it gives you more information</div>
Can you use the toggle to go forward 2 mins and 30 seconds	<div>Chicago cops vaccine firing</div> <div>It's buggy</div> <div>Successfully completed task</div>
Use the app to listen to a featured item. Speak out loud as you do so.	<div>Loteria doors selected</div> <div>Yesterday? Is that who made this?</div> <div>Expected more information on collapsed player and radio screen</div>
You want to use the app to listen to today's NPR newscast. Speak out loud as you do so.	<div>The radio (pg) had marketplace that showed today</div> <div>I dont like that the radio pg doesnt have a date on it</div> <div>Full radio schedule is hidden</div> <div>Full radio schedule is hidden</div> <div>What if I wanted to listen to marketplace 2 days ago?</div> <div>Goes to full radio schedule</div> <div>There we got i like the information that it provided</div>
You want to find and listen to a podcast. Show how you would do so.	<div>Browse, burger menu, Nothing, no search</div> <div>Newsletter is not the first thing I want shown to me</div>
You remembered hearing something interesting while listening to WBEZ around 1 PM yesterday. How would you go about finding that content?	<div>I'm caught in a loop</div> <div>Browse, radio, the confusion between the radio and the radio schedule page</div> <div>Thought radio was radio schedule</div> <div>Radio schedule is hard to find</div> <div>It's background because background only lists the name for both radio and radio schedule</div>
Let's say you wanted to donate to WBEZ. What would you do? Please think out aloud while doing so.	
What do you expect to happen after you've finished listening to a recent highlight? Did the "Donate" experience match your expectations? Why or why not? [Verbal response]	<div>I prefer the donate popping out to offer because I can use autofill</div>

radio

It is important to note that the results of this study are based on a cross-sectional design, which limits the ability to establish causality. Future research should employ longitudinal designs to investigate the temporal relationships between the variables studied.

Combine radio
and radio
schedule pg

Users prefer jumping into safari when donating

- In app browsing doesn't support auto fill

- Complements on donation page

- Let's not make extra work for ourselves to

Radio / Radio schedule confusion

- Let's combine them

- This will also fix the confusion users had with context

Context confusion

- should be resolved with typography implementation

- with future plans to improve / match user expectations

Burger menu confusion

- users expect to find "their" settings their
 - account, saved items, MY PODCASTS

I think this is a scope issue, overall every usability issue passed

Compare the average heights of the two basketball teams with the average height of the girls.

January 1997

As they go about their daily training, these athletes also have to be able to identify what's going on inside their bodies and make adjustments (shown below).

The diagram illustrates the relationship between external and internal factors in athletic performance. It features a central box labeled 'Performance' with a plus sign. To its left is a box labeled 'External Factors' and to its right is a box labeled 'Internal Factors'. Below 'External Factors' is a box labeled 'Skill (Technique)' and below 'Internal Factors' is a box labeled 'Skill (Technique)'. Arrows point from both 'Skill (Technique)' boxes towards the central 'Performance' box, indicating that both external and internal factors contribute to overall performance.

Training Manual

For the next activity we want something to make it more like a 10-question game. How would you do that?

Survey Method

Figure 1. The flowchart of the study design. The flowchart illustrates the process of identifying and analyzing studies for the meta-analysis. It starts with a search of the literature, followed by screening of titles and abstracts, and then full-text screening. The final step is the analysis of the included studies.

Statistical Analysis

How do you do this in a 3000 word essay? (apart from using the 1000 word essay)

Results

1. Identify the problem

2. Analyze the problem

3. Develop a solution

4. Implement the solution

5. Evaluate the solution

THESE THINGS

Q1: How many times has your relationship for the rest of the day been successful?

The diagram consists of three overlapping rectangular boxes. The top-left box is pink and contains the text 'Successful relationship'. The top-right box is blue and contains the text 'Successful relationship'. The bottom-center box is also blue and contains the text 'Successful relationship'. The boxes overlap in a way that suggests a continuous or interconnected process.

THESE THINGS

[illegible]

The screenshot shows a Trello board with the title "How to be a 'Technical' management and your responsibilities?". The board contains four sticky notes:

- Sticky Note 1 (Pink):** "Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services."
 - Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services.
- Sticky Note 2 (Blue):** "Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services."
 - Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services.
- Sticky Note 3 (Blue):** "Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services."
 - Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services.
- Sticky Note 4 (Blue):** "Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services."
 - Technical management is responsible for the technical aspects of the organization, such as the design and development of products and services.

There is also an orange sticky note in the top right corner that says "Thank you!".

Typical
Answer

Keywords: child sexual abuse; disclosure; social support

Revised 1/2000

```

graph LR
    A[The Internet] --> B[The Cloud]
    B --> C[Big Data]
    
```

The flowchart illustrates the progression of technology. It starts with 'The Internet' (pink box), which leads to 'The Cloud' (blue box). From 'The Cloud', it leads to 'Big Data' (blue box). The boxes are connected by arrows, indicating a sequential flow.

Information

12. What activities brought you the greatest satisfaction? (Circle answers)

Learning about their city	Watching city life in the streets	Traveling to see the sights and people	Traveling to see the people and life in the city
	Visiting the city's museums
